Neomounts by Newstar desk clamp set 8-25 mm - White

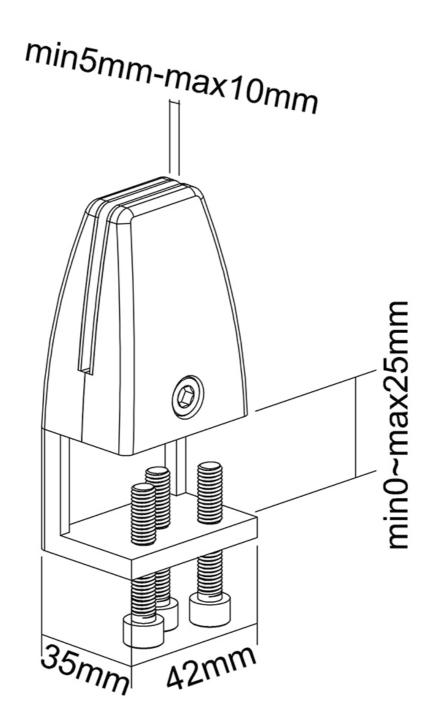

The Neomounts by Newstar NS-CLMP25WHITE is suitable for desks with a thickness of 8-25 mm. The clamps guarantee a solid and secure installation of i.a the NS-GLSPROTECT safety screens or any other suitable screen you want to attach onto the desk. The clamps are secured directly onto the desk and therefore move smoothly with the height adjustable desk.

Also available: For desks with a table top thicker than 25 mm, the NS-CLMP40 clamps - in black and white - are available. With these clamps, the screens can be mounted on desks with a work surface of 25-40 mm thick. Rather use table feet instead of table clamps? The NS-CLMPSTAND clamps with table feet offer the ideal solution.
